

Summary Chart: All Proposed Changes in Procedures and Outcomes in the New Rules of Golf for 2019

The purpose of this chart is to list **all** of the proposed substantive changes to the Rules of Golf in one place for ease of reference. This chart covers only **changes in outcome or procedure** in the revised Rules and Definitions. Changes in the terminology used in the Rules and Definitions are identified in a separate document called **Summary Chart: Proposed Changes in Definitions and Key Terms in the New Rules of Golf for 2019**, available in the [Resource Library](#). Other changes in style, language and organisation can be seen by reviewing the entire draft revised Rules, also available in the [Resource Library](#).

Each entry on this chart describes the proposed change, along with references to the current Rule number and the revised Rule number. The changes are organised in the following categories:

1.3	Abnormal Course Conditions	A player <u>no longer needs to announce</u> to another player or the marker that he or she intends to lift a ball to see if it lies in a condition where relief is allowed (such as to see whether it is embedded) or to give that person an opportunity to observe the process,	16.4	Decision 20-1/0.7		G.2

1.8	Dropping Procedure	When a ball is dropped in taking relief, the only requirement is for the player to <u>hold the ball above the ground without it touching any growing thing or other natural or artificial object</u> , and let it go so that it <u>falls through the air</u> before coming to rest; to avoid any doubt, it is recommended that the ball be dropped from at least one inch above the ground or any growing thing or object.	14.3a	20-2a		
1.9	Dropping Procedure	When a ball is dropped in taking relief, it <u>now must be dropped in and come to rest in the same relief area</u> ; if either or both of those does not happen, the ball must be re-dropped.	14.3c	20-2c		
1.10	Dropping Procedure	If a dropped ball accidentally strikes anyone or anything and the ball then comes to rest inside the relief area, it must be played as it lies and <u>must not be re-dropped</u> .	14.3d(1)	20-2a		
1.11	Dropping Procedure	A player must not deliberately deflect or stop a dropped ball to affect where it may come to rest (except when it is outside the relief area and there is no reasonable chance it will return to the relief area); in stroke play, if a player deliberately deflects or stops a dropped ball, <u>the ball must be re-dropped no matter where it came to rest</u> .	14.3d(2)	1-2		
1.12	Dropping Procedure	If a dropped ball comes to rest outside the relief area, it must be dropped again; there is <u>now no limit to the number of times to re-drop</u> and the player should drop in different locations and from a lower height if necessary to get the ball to come to rest in the relief area.	14.3e(1)	20-2c
