

## Women in Golf Charter

Chinese Taipei Golf Association is committed to encouraging more female to participate in golf. We strongly support The R&A on the launch of its Women in Golf Charter and wish to reach the aim of the Charter on increasing the number of female playing, coaching and working in golf.

As the governing body of golf in our jurisdiction and to achieve the goal to enable female to flourish throughout golf, the CTGA is delighted to be a signatory and make its own commitment to support the charter through the following initiatives:

- ♦ **Rooting: Create an environment for the sport of golf easier reach to female.**  
All female golfers and female working for golf are encouraged to go among the non-golfer in all walks of society sharing their knowledge and experience of golf. Academics would be the best stage we could provide for them to inspire more female to be involved in and start sporting golf.
- ♦ **Sporting: Provide more opportunities for female could communicate by golf.**  
We regularly run high quality events set for female participants, and will encourage more female to compete on international tournaments, sharing thoughts in international conferences, and working within the industry of golf. Female with wide experience of golf may be the teachers with potential to coach or referee.
- ♦ **Coaching: Encourage more female to take part in educating of golf.**  
We are supporting and advocating for more female pursuing certificate of coaching or refereeing by holding sessions of seminar, lesson and examination. Certificated female coaches and referees may become best rooting helper in the future.

We believe by reiterate the circulation of rooting, sporting and coaching, the enthusiasm of female participating in golf could be inspired.

We look forward to the promising future ahead in collaboration with The R&A in realizing the dream of more women in golf.

**Johnson Wang**  
President  
Chinese Taipei Golf Association
