

Medi8 is proud that our commitment to diversity ties in so well to the R&A's Women's Golf Charter. The women we have in leadership positions are passionate about the future of the game. Everyone on our company is dedicated to increasing women's participation and attracting female talent into the industry. We strongly believe that improving gender balance is the key to achieving both these aims, which is why we are delighted to become a signatory of the Charter.

As well as being an early signatory we pledge to:

- Encourage others to become signatories of the Women's Golf Charter
- Create opportunities to promote the women's game through our work
- Inspire female talent to take up positions within the industry
- Support women working in the game
