

Women in Golf Charter

The Liechtenstein Golf Association (GVL) is committed to encouraging more Women and Girls to play golf and supports them to have careers within the Golf industry in Switzerland and abroad. Although we are a small association in a small country, we aim to grow the game in Liechtenstein and therefore try to get more Women and Girls into golf, as there is still a big growth potential in this group.

The GVL is pleased to sign and support the Women in Golf Charter led by the R&A and is proud to have already in place the following:

Board member: at least one woman in the GVL board

Commissions: at least one woman is member in each of our Commissions

General Secretary: our last secretary has been female

We will commit to:

1. Actively increase the involvement of women in the GVL Governance and structures
2. Increase the number of women playing the game by developing Women & Girls focused initiatives.
3. Showcasing Women and Girls as role models throughout every aspect of the game.

We look forward to the journey ahead, working collaboratively with the R&A to achieve gender balance and a more inclusive culture within golf.

Mr. Peter Tinner
GVL President

Mrs. Christine Tinner-Rampone
GVL Board Member
